Catalina

Catalina In less than one month of this article's publication, 8th graders are being sent on a field trip to Catalina Island. The three day field trip starts off with a boat ride through the ocean, and to Catalina. Once there, there's going to be at least one thing that takes your breath away; from the island's natural wonders, to the activities planned by the chaperones, so remember to be nice to them! The different schools going chose different activities, ranging from squid dissection to astronomy. Within each school, we are subdivided into groups and placed in "cabins," which are relatively like hotel rooms.

Since we're going in April, be ready for temperatures in the sixties, a long sleeve shirt or two packed in with the rest of your clothes would be a good idea. But remember to bring a swimsuit if you plan on taking the Scuba course; and bring one anyways, just in case. Some jeans would be advised for the astronomy hike we'll be taking, and bring a jacket as well. Don't forget to bring deodorant either, people WILL notice. And you might want to consider bringing a deck of cards, or some other small game, to play with your cabin-mates after the day is done.

The three day journey starts on April 13th, and if you miss the bus you don't go. Arrive at the school promptly at **5:00AM**. Just in case, plan to arrive 10 minutes early, in case you're running a little late. Bring something to do on the way there, a book, a game, etc. etc. Try not to bring too many electronics though. And lastly, bring a camera for some pics!

Spring Dance March 30th

The spring dance is a school activity and a fun event. The theme of the dance is 80's. They will have food and beverages for you to snack on. They will also have glow sticks and other light up things to

buy. The tickets of the dance will \$5 each. There will be a DJ playing all the songs you enjoy. As always they will have the photography and you can take pictures with all your friends. Different size pic-

tures have different cost. The dance will start at 6 and ends at 8. So everyone come down on Friday and have some fun with friends.

Mrs. Betters

We asked Mrs. Betters some questions, some of them being like what can her students look forward to. Like what's coming up what's next and she said, "they will think in was they never thought possible". We also asked why she picked history as her subject and she said, "I picked it because I have a social studies credential".

We asked her about where she got her teaching degree also. The answer she gave us was, "I got it at Cal State

Fullerton, Home of the Titans". She said she attended that school because it was closer to home and she didn't want to live on the campus.

She also teaches yearbook. She was asked to and she loves it. We also asked her what is her favorite thing at Mesa View. The response she gave us was, "the staff, the leadership, and the feeling of being around a good environment.

She also said that she was inspired to

teach by Jesus . Some of her hobbies outside of school were hanging out with family, godchildren, and read to her friends.

She said she sees herself helping people and performing Gods plan. Lastly we asked her what she enjoyed as a kid and she said, "P.E. and running sports.

Mrs. Pennino

We asked Mrs. Pennino some questions, some of them being like why did she decide to teach at Mesa View. She said she chose to teach her because she heard about the STEM program. Ever since she's been teaching at MMVS she loves it more than any other school she's taught at.

She enjoys teaching Science, but she can also teach another subject which is math.

Students of hers can look forward to lots more labs and fun activities in her class.

Some of her hobbies outside of school are to play golf, and volleyball. Also playing with children. She loves to stay active.

She received her college degree at Cal Poly. She got her teaching degree at University of Phoenix.

She says in 10 years she sees

herself continuing to teach at Mesa View and to build rockets for NASA.

Mesa View Middle Shoes

Have you seen the style of Mesa View Middle school? There is always different kinds of styles. Weather it's clothes, handbags, or maybe shoes. The clothes of Mesa View's students explains a lot about their personality. We did a photo essay on some of Mesa View Middle School's students shoes. All these students all have their own unique style. Two of the many people we took pictures of were Jordan Stanley and Tristen Macias. Jordan has a style of , hello world I'm Jor-

dan Stanley, look at me. Another person is Tristen Macias. He has his own style that represents his own personality. It is that he is not afraid to express himself. This is some of the unique style of Mesa View Middle School's students style.
