## What's Coming Up?

PRYDE leadership camp will be taking place this spring. The students that were chosen by the Yucaipa Rotary Club will learn leadership skills and how to help other people. The CAASPP State test is coming up, and is all new. The 2014-

2015 assessment is now implementing the Common Core academic standards. Unlike last year, the test will

count and results will be available to families and schools in the early Summer.

## What Happened?

Just a few short weeks ago, Mesa View students got to have a blast over spring break. They got to put their pencils down and enjoy a short time for relaxation! Some lucky students even got to go to Washington DC over spring break and had an amazing time. On

Friday April 4th there was a presentation on never giving up and fulfilling your dreams. Students in all grades got to watch examples of dreams coming true through their favorite celebrities. The 8th graders went on an exciting science trip to Knott's Ber-

ry Farm on the 12th of March and the students learned how to get g-forces. On the 6th of March there was the annual Spring Dance. The dance was Holly Wood themed with the colors of red, gold and black.

## Up in the Club... Activities

Guitar Club has been working really hard recently. Mark your calendars because they are doing a special performance at the end of the year! Soccer teams have been selected and are practicing every Tuesday and Thursday at 2:30-3:30. They will be playing some games real soon. Actually the first games are on the 16th of April. Go out and give our

school some support. Card Games Club has been playing Magic the Gathering and Pokémon recently in Mr. Munoz's class at A and B lunch. Mountain Bike Club is working hard for races over at Yucaipa High School every Thursday after school. Did you know that last practice they biked over 24 miles?

## Staff Highlights

This month we had many of our staff members receive amazing awards for their excellent teaching and services they help with.

Mr. Bennett was one of the many staff members to win. He received educator of the year, as well as PTSA Continuing Service Award that Mr. Pitman also received.

Another impressive award won was the PTSA Honorary Service Award. LaForcade & Kristi Gorell

received for their continued help in the PTSA.

Here at Mesa View we can thank our won-

derful staff members for continuing to excel in their job, and help us excel in our jobs.

Congratulations Staff!

## Student Highlight

Students at Mesa View love to get involved in school activities and trips.

A few students even got to share their experiences and future endeavors.

One student, Abby Madrid filled us in on the NASCAR Speed Way STEM Trip. Abby describes the trip as fun and exciting. The kids got to learn how even race cars in-

"It was the best time ever!"

volve STEM. Abby got to test different materials for density and got to use

density triangles. She even said, "It was the best time ever!" Another student highlight is Gavin A, who is

going on the PRYDE field trip. He told us about the process to getting into the program. "I had to do an application and

get interviewed at my house. I was a little nervous but it was a cool process and I am super excited to go on the trip!" It is an overnight trip to help build leadership skills and communication skills. We can't wait to hear more!

## End of the Year!

The year is coming to a close and the classrooms are finalizing grades and students are getting ready promote a grade. Speaking of promoting, eighth graders are all moving up to the high school and they have their 8th grade awards night on June Third. And the sixth and seventh graders are having theirs

June Second. All the seventh graders are super excited for the Renaissance Faire! On May fifteenth the seventh graders get to dress and act like they were in the Renaissance times! As we creep towards then end of the year, it gets more and more stress-

ful to keep up the grades and attendance. Remember to keep up your attendance for a chance in the drawing of an iPod shuffle.
