

## **Band Knott's Trip!**

On May 20 Mesa View's Band will take a wonderful trip to Knott's Berry Farm. Its to reward all of those in band but they will have to perform at Knott's. For all of those who don't know what Knott's is, it's the first amusement park made in America. The field trip will last all day and

there will be chaperones and Mr. Kane will also be there to instruct the band. Choir will also make an appearance hopefully on stage. There will be judges there at Knott's to grade the band and choir's performances. If the band wins they will receive a special award. Some of the

eighth graders going are lucky, because this will be their second field trip to Knott's Berry Farm.

## **Yearbook Signing Party!**

On June 2 Mesa View will celebrate the end of the year school Yearbook signing. Student in any grade may go to the MPR to get there yearbook signed by there friends or any body they know or people they don't know at all, they just want their yearbook signed. The Mesa Digital Media and school Yearbook will be Taking pictures of this event.

If they are lucky it might just go on the Mesa View school website. The party is a fundraiser to go towards all the money and time spent making these yearbooks. The price for a ticket to get in is not yet known but it will probably be around five dollars like the dance tickets. One good bonus in going to the Yearbook Signing Party is you get your

yearbook a couple days early. It has been another great year at Mesa View and congrats to all of the eighth graders who will be moving on to high school next school year especially those who have been here since the start of the sixth grade STEM program..

## District Band Concert

## Awards Night Rehearsals

My Photo Studio

www.myphoto-studio.blogspot.com

On Monday June 1st the eighth grade awards night rehearsals will happen for any eighth graders who will want to have a speech at the eighth grade awards night. This will be special moment for the people who will

go up on stage because they will get to say how they felt in the two or three years they have been here. They have made it this far and it may have been painful or another great school experience and have bonded

with some of the teachers here at the school and it will hopefully be great at high school or whatever school they might go to. They have made some very good friends and will have a very bright future.

## Day of the Teacher

This is the world's Teacher Day. It was started by UNESCO forty years ago and over one hundred countries celebrate this day. This day

represent the awareness, understanding, and appreciation of teachers. This day is celebrated on May 13th every year. This will especially congratulate

ing teachers like Miss Gregory who has just come out of surgery and continues to teach like a boss! Thank you to all of the teachers in America it means a lot to us students.

Mesa View's hard work-

### Memorial Day

On Monday May 25th, students will not go to school. That Monday is a holiday, also known as Memorial Day. Memorial Day is a day where we remember all those who served and/or died in the

Military Service. It used to be celebrated on May 30th, but now it changed to the very last Monday of May. On great cemetery is the Arlington cemetery in New York. It represents all of the men who risked their lives in the Vietnam War and has been a cemetery since. So sorry

to the families who lost their loved ones in war But they continue to stay strong. Don't act to bad kids on Memorial Day take a moment and remember those who fought.

### State Testing Ends

On Friday May 22 the CAASPP testing ends. YAY!!!! Is what you mesa view students are thinking and to be honest possibly even the teachers are thinking that because now they don't have to stress over teaching the students on things totally off topic. I hope everybody did good so that they can get good

classes next school year. Its been a pain for every student because they have to do the test in a whole different environment and not the old CSTs where it was just circle one and fill in the blank. It was common core and it is not common to our brains at all. But at least it is over and won't have to deal with it till next

May or April . And when it does come it might just confuse you even if you were prepared for it. Good job to all of the teachers for training their kids for this wonderful test. Also, you should be prepared to take this hard test and congratulations.

### Spring Choir Concert
