Student Accomplishments

Today at Mesa View Middle School, we will talk about students accomplishments. Today we met up with Trevor Scott, who made his very own rocket ship out of his own designs. He said "I made this in STEM" Wow! Mrs. Pittman is getting these students ready for the long run. I wish I was in STEM! Can you believe that an 8th grader can do something that incredible?

Trevor Scott isn't the only student that is being outstanding. We also have an student council member that achieve her very own goal. Her name is Katelyn Holt, and she achieved her goal by doing 100 pushups. She said "It took a lot of dedication and valuable time but it was worth it." What an amazing student? She is definitely a inspiration.

However, she isn't the on-

ly student council member that was outstanding this year. A boy named Stephen O'Connor, also know as Scuba O'Connor. He got the amazing idea to get In N Out at school for our last dance. Not only did he get the idea he managed to make it happen. What an accomplishment! Besides all of the students accomplishments, we have a teacher this year that just stood out from the rest. His name is Mr. Cruz. For his very first time, he got to teach 8th grade this year. If I was him I would be so happy.

Jennifer Perez is another star member of Mesa View Middle School, she is one of the star players for 3rd period P.E. She can score many goals with a little help from the other members of her team. She said "I love playing soccer, it relives some stress that's put on me by school, and other activities. One of her other helpers, is Dana Tellez, she helps make goals by passing it to her.

Mesa Views Pride Academics

Stephen O'Connor also known as Scuba O'Connor strikes again with his great academic achievements, not only did he come up the In-N-Out idea, he has straight A's. he has

been working on the because he wants to be "Big in the future." Now he's going somewhere. With all of his will power, anyone could do what he does. This is the first

year that Mesa View has Geometry because of all of the smart students. Along with this, this is one of the first year that both English, History, and Math have a lot of academic students. This year students are stepping up to the challenge to get straight A's.

School is almost over!!!

This year has been one of the best for Mesa View. This year has the most academic achievements of all time. These students strived to make a difference, and they most diffidently made a difference. I hope next year is like this! I hope they want to change the world like the students this year. Mesa View Middle School has never had better students than this year. Academically, they made a

huge difference. But we have an huge announcement in 2 weeks. That announcement would be all of the wonderful eighth graders of this year get an mustang statue. However, we have another amazing thing happening this year. It's the eighth grade promotion. This will happen on June 3rd, 2015.

Renaissance Faire

Recently the seventh graders just had a faire all about the renaissance. They had horses come out, and many activities. They made poems and they weaved. They even attended a jousting fight at the end of the day. Unfortunately it was canceled due to rain. But that didn't stop them, they got to see them the next

week on Wednesday! It was very exciting to watch. They also got to see a blacksmith. This black smith showed them how to heat metal and then pound it several times till its flat. Then he showed them how to makes certain tools. This was almost perfect until mother nature poured rain that day. So they had to sit inside

to do there activities, instead of outside like last years seventh graders. This year they had a miniature pony, I bet the eighth graders this year were jealous! Last year eighth graders got to see four horses and a miniature horse. They also got to learn how to take care of them and ride them. The students didn't actually get to, get on the horse. However, they got to see them do it as they taught them.

Summer

This years summer wont be the same for the seventh and eighth graders. This year Mesa View is offering summer school P.E for those who don't want to do it during school next year. Coach White is offering it and Coach Gianni. Also this upcoming summer Eighth graders and Seventh graders will get the

schedules. During summer the eight grade WEB students will be retiring and the Seventh graders going on Eighth will be taking over. One of this years WEB students spoke to us about how it was. Bailey Petersen said "It was a fun and life changing experience at Mesa View Middle School and im going to miss it when I go to Yucaipa High School in August.

I wish the best of luck to the WEB leaders of next year." Just a reminder that on the last day of school, everyone has to dress the dress code appropriate style, or you will get dress coded. This summer you better get studying for next year, because it is not as easy as they explained it,. Just do your homework, pay attention, and study for tests and you will get straight a's.

Insight about Mesa Views first 6th grade class

In the year 2012, Mesa View Middle School had their very first sixth graders. The people who taught them were Mr. LeVan, Mrs. Wilson, Mr. Gordon, and Ms. Ring. These teachers were remarkable during that year. Sixth graders got to stem projects every other week. It was amazing what they could come up with. The biggest one was Da Vinci day, everyone in the school participated in that event. The sixth graders did very well in the competition.

But an eighth grader won that year. Every year at Mesa View Middle School they have Da Vinci Day. Sixth graders had to go through four rotations during the school year. Stem, avid, art, and band. The teachers that were involved were Mr. Kane, Mrs. Pennino, Mrs. Hagen, and Mr. Bennet. I heard this year they included dance and tech literacy. This will be the year that all the first sixth graders of this school will be leaving to high school.

Eighth grade Awards

The eighth grade promotion is coming up. Remember to dress appropriately or you will be asked to leave. Some of the rules to get in are; you can't have more than one F, no suspensions, limited amount of Saturday school, and a limit amount of late slips and on school campus suspension. This event will be placed on June 3rd, 2015. That's in a couple of weeks! You will get an invitation sent home if you are allowed to attend this event. If not then you haven't passed all the rules necessary to get in. This event is happening because all the eighth graders of this year are leaving to high school. This is a special awards night for the eighth graders.
